Please accept my most sincere appreciation for reviewing this CV. My name is Jose Lopez and I am 35 years old with 17 years of experience working with technology, in particular the Internet.

I am well versed in everything that involves the Internet as a platform, from Server Administration to Web Development and everything in between. I've worked with various large corporations and well known individuals around the globe which are worthy of recognition:

- iGlobalMedia Corporation (now known as PartyPoker)
- The Bluhdorn Family in New York
- Teckmark Media / Password by Phone (based in Germany)
- Tweaky / ELTO (now acquired by Godaddy / GDDY)
- Tim Ferriss (author of The 4-Hour Work Week)
- Fresh Development (based in England)

I've been a key participant of many successful websites across various industries for several of which I continue to provide support and consultancy. The core of my success is directly related to my ability in adapting, understanding, learning and leveraging the inner workings of any challenge laid in front of me.

The Internet (and technology in general) is my bread and butter and as a Web Professional I am certain to be a valuable asset to any modern business looking to expand their online services.
